

## Elegant, Versatile Landscaping Solutions

Why are J&P tree roses superior? Because we make quality our highest priority. Unlike our competitors, J&P buds each tree rose with four buds instead of only two, ensuring a full, balanced head bursting with color. With our exclusive Double Decker™ tree roses, or our traditional and weeping tree roses in three versatile sizes, your customers will get exceptional plants on our exclusive tree rose standards, for the straightest, prettiest tree roses anywhere.

All varieties below can be ordered in tree rose form. They're identified throughout the catalog with this tree rose symbol 🌹.
